

REMARKS

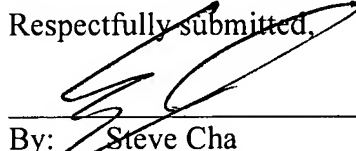

No new matter has been entered.

Claim 1 has been amended, and support is clearly found in Figs. 3 and 4, and the specification at Page 5, lines 13-16. New Claim 14 depends from claim 1 and specifically recites that the DHCP server directly controls IP address assignment in the ONT. Support is found in Figs 3-4 and the specification at Page 10, lines 5-9.

No additional fee is believed to be necessitated by the foregoing amendments. However, should this be erroneous, authorization is hereby given to charge Deposit Account No. 502-470 for any underpayment, or credit any overages.

Applicants respectfully request entry of the foregoing amendment into the file history of the above-identified Application being filed herewith. Early and favorable action on the pending claims are earnestly solicited.

Respectfully submitted,
